SAM — Manifestation Compendium

Understanding Manifestations

A Manifestation's **Tier** equals its base Beat cost in Half-Beats — Tier II costs 2 HB, Tier IV costs 4 HB (2 FB), and so on.

Each additional Half-Beat spent beyond the base cost **Amplifies** the Manifestation by one step, adding +1 die to the attack roll unless the entry specifies a different Amplify effect. Amplifying without sufficient Harmonic Resonance skill deals Aeon damage to yourself equal to the maximum value of every die added.

Manifestations that can chain list dice, CF, and damage type. Their CF works identically to weapon CF when used as the follow-up in a Chain.
Manifestation attacks cannot Crit.
